

Enliven Engineering

With Better Solution

Get Max Out Of Your Generation

With

**Automatic
Solar Cleaning System**

Who We Are ?

- ❖ Based in Central India, Enliven Engineering Provides Solar Automatic Cleaning System (Robotic and Sprinkler), Solar AMC , EPC , I&C
- ❖ We as Enliven Engineering is dedicatedly work in ensuring that to provide better Solution in renewable energy so it can be easily accessible to everyone.
- ❖ By having a 12 year of Experience engineers and Technicians in the field of Solar, Due to that We provide the Quality Work to the customers

Why Automated Cleaning Solution ?.

- Regular cleaning on time according to program.
- Helps to maintain generation levels at max.
- Reduce dependence on manpower / Save risk of climbing elevated structures.
- Increase ROI% compared to irregularly cleaned plants.
- Increase (performance ratio) PE and CUF (Capacity Utilisation Factor).

How Does Automatic Solar Cleaning System Works

Water tank

Motor

Programable Control panel

Solar panels with Sprinkler

Solar Automatic cleaning System

Annual Maintenance Contract

What We Do

Solar EPC, I&C Services

There are several reasons you should choose us as the **Doctor for your Solar plant**

- ❖ Our First priority is to understand the need of customer and full fill it.
- ❖ Our team is excellent in monitoring and resolving the problem in shortened period
- ❖ We keep attention to the small stuff, scheduling of timelines and keen project management that makes us stand out from the rest.
- ❖ We are creative, while keeping a close eye on the calendar and your budget.

Why Choose us..?

"We will always find new innovations in technology that can certainly make it easier for you anywhere and anytime without any restrictions."

Our mission

**'To make Solar cleaning Safe
and Free of human costing'**

We provide the Automatic Solar
Cleaning System to improve your
Solar efficiency

We Thrive to add the best value
in the industry
with a better and smart solution
give our customers, our
communities, and our
nation clean, abundant, low-cost,
distributed,
and renewable energy

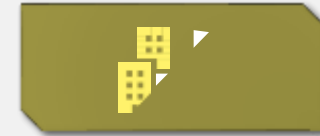

Areas of Installations
